# ULTRA

## The agglomerated cork

Carefully selected cork granules in combination with food-safe binding materials have made the ULTRA stopper an economically attractive solution with its production in rods of cork.

Carefully selected cork granules in combination with food-safe binding materials have made the ULTRA stopper an economically attractive solution with its production in rods of cork.

*We have to point out that this agglomerated stopper should be used exclusively for fast consumption wine within 6 months.*

The ULTRA cork is available in various sizes:

35 x 23 38 x 23 38 x 24 mm

Great offer for many reasons:

- ✓ The ULTRA is our most attractively priced cork closure
- ✓ Lowest-priced inside-sealing bottle closure
  *(Less expensive than synthetic closures)*
- ✓ Excellent sealing properties
- ✓ 24mm diameter cork provides even better seal in bottles

Technical Specifications:

| | |
|---|---|
| Length: | +/- 1,0 mm |
| Diameter: | +/- 0.4 mm |
| Ovality: | ≤ 0,3 mm |
| Specific weight: | 250-330 kg/m³ |
| Moisture: | 4 % to 9 % |

audited HACCP by Hygienicum Graz
